BIKE PERFORMANCE SPRINGS

- Renowned motorsport technology for your bike
- Uncompromising lightweight design
- Ultra high tension material
- 100% Made in Germany

www.h-r.com

EXCEPTIONAL PERFORMANCE

NO COMPROMISE, LIGHT AS A FEATHER!

Depending on the spring geometry, the **weight reduction can be up to 30%.**

Ultra-light springs for your bike German Engineering

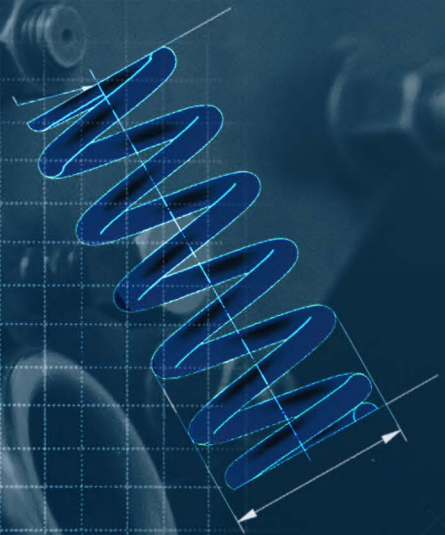

The new H&R Bike Performance Springs promise weight loss in the truest sense of the word - without dieting! A new and extremely light steel alloy makes it possible to combine durability, performance and extremely light weight in one spring.

Available in all common spring rates and for shocks with a stroke of 65 mm and 75 mm, the shock and bike can be customised to the rider's wishes and requirements.

H&R Bike Performance Springs
are 100% Made in Germany!
